## Rains Ease Crop Fears, Fire Threat

48-Hour Showers Joy to Farmers, Fire Battlers

Showery weather over the past 48 hours brought joy to farmers and fire fighters alike. Light rains which fell overnight in northern and central Alberta, following similar showers the day before, brought relief to crops which had been parching in prolonged drought.

Meanwhile, almost 200 fire fighters from northern bushlands worked furiously to take advantage of the damp weather in battling 19 fires.

"Showers have prevented new outbreaks of fire, and crew are making excellent progress against fires which have been burning for the past few weeks."

Fire reports were filed today with forestry officials at Edmonton, as fire fighters spent every minute in stricken areas attempting to gain control of the first before dry weather returns.

At Cold Lake, about 125 miles northwest of Edmonton where the worst of the 19 fires is burning, a 60-man crew is believed to be successful in checking the flames.

Overnight light showers fell in the area between Lesser Slave Lake in the north and Red Deer where 23 inch was recorded in 24 hours.

At Cold Lake, about 125 miles northwest of Edmonton where the worst of the 19 fires is burning, a 60-man crew is believed to be successful in checking the flames.

Overnight light showers fell in the area between Lesser Slave Lake in the north and Red Deer where 23 inch was recorded in 24 hours.

## GOLFER PICKS UP FEW POINTS

UTICA, N.Y., June 24.—(AP)—A Utica college golfer scored 82.20 on a golf course but it "ruined my golf game," he lamented yesterday.

"I wound up losing 15 cents on the 18-hole round," mourned Robert W. Lake, Jr.

In the 14th fairway Wednesday he ran across \$9.00 in United States savings bonds. On the 16th, he found \$200 in 300 bills.

He returned the bonds and greenbacks to the owner, Ray Anton of New Harvard, and received a reward—amount undisclosed.

## Skipper Faces Court Martial

HALIFAX, June 24.—(AP)—The commanding officer of the aircraft carrier Magpie, charged with the sinking of the German submarine U-552, is facing court martial.

Admiral R. D. Mainguy, chief of the Atlantic Command, announced today that Commander G. K. East, skipper of the carrier, will be a defendant in the first court martial presided over by Rear Admiral R. D. Mainguy, chief of the Atlantic Command.

At Cold Lake, about 125 miles northwest of Edmonton where the worst of the 19 fires is burning, a 60-man crew is believed to be successful in checking the flames.

## Posse Finds No Trace Of Killer

Fear-Ridden B.C. District Evacuates Women, Children

MISSION, B.C., June 24.—(CP)—A 24-hour search for Ivar Johnson, grudge-ridden farmer, alleged to have killed two women, has failed to reveal a trace of the hunted man.

In the fear-ridden Silver Hill district, homes and children have been evacuated to Mission City.

Head-high ferns, rooted stumps and trees and the debris of an untouched forest hid all but the closest men from sight.

## Hardy Plan To Be Given Close Study

City council will grapple with Edmonton's paving problem at a special meeting next Wednesday afternoon, it was announced today by Mayor Harry D. Ainlay.

Having top priority at the meeting will be the plan to experimentally lay some 32 blocks of flexible asphalt according to specifications provided by Engineering Dean R. M. Hardy of the University of Alberta.

Specifications of Dean Hardy have now been received by Acting City Engineer James Macdonald and will be thoroughly studied by the engineer and city commissioner before the special council meeting next week.

TO SPEED UP START Commencement of R. M. Hardy said today the special meeting of council is required to facilitate start of work on the Dean Hardy experimental program.

Under city bylaw, streets to be paved must be advertised for two weeks and additional two weeks before for filing of possible protests from ratepayers.

"That means that a start cannot be made before Aug. 1, which leaves only two months of summer weather for the paving."

Advertising of the streets selected for paving will be authorized by city council.

COST NOT KNOWN Specifications submitted by Dean Hardy are of a highly technical nature. Soil conditions and gravel used are factors that differ from street to street, Commissioner Macdonald said.

City officials said they have not yet seen what experimental paving of the 32 blocks will cost, as the factors of soil and gravel again enter into the problem.

The Hardy plan proposes flexible asphalt paving of 32 blocks of streets within 30 days of the start of the trials. The heavy concrete base will be eliminated, reducing cost by at least one-third.

FAVORED BY C. O. C. Edmonton Chamber of Commerce today will discuss all types of street surfacing, flexible, oiling and rigid base paving.

Meeting will start at 4:30 p.m. Special meeting of council next Wednesday will discuss all types of street surfacing, flexible, oiling and rigid base paving.

Site for a \$50,000 showroom and office building was purchased today by the city from J. J. Failing Co. Ltd. of Edm., Okla.

Four lots south of Kingsway, between 108 and 109 streets were bought from the city for \$5,000.

Failing company planned to manufacture oil drilling equipment in a plant to be erected in the west end.

Company commenced daily drilling a water well on the Kingsway property.

## OIL EXPLORATION RIG DEMONSTRATED

Poised for drilling demonstration, portable exploratory drilling rig stands at 100 street on Kingsway. Chief operator, V. C. Mickle, G. E. Failing Co., of Edm., Okla. (wearing tin helmet) is seen beside truck which carries derrick. Costing about \$20,000, outfit is used in making seismicological surveys and for shallow drilling.

## Oil Reserves of Alberta Surpass Mexican Fields

WASHINGTON, June 24.—(CP)—A private consultant today told the United States government that Alberta's oil potential is greater than Mexico's.

Max W. Ball, former chief of the oil section of the Interior Department, said this point in a letter maintaining that a United States loan to Mexico for oil development would be a "disaster" to both countries.

He estimated the content of the Alberta and Northwest Territories fields at 200,000,000,000 barrels or more. Mexico's undiscovered reserves, he said, are only a geologic guess but are probably between 5,000,000,000 and 15,000,000,000 barrels.

Bally's letter to the state department, which was made public, estimated oil, concealed for the recent 100,000 loan from the United States government to Mexico for oil development would be a "disaster" to both countries.

The reference to Canada was made in one of 20 points Ball made in his letter.

ALLURING PROSPECT? The donation offers "more alluring prospects, geologically and politically," than Mexico, he said.

"A great sedimentary basin lies east of the Rockies in western Canada. It occupies parts of Alberta, Saskatchewan, British Columbia and the Northwest Territories. It is called the Alberta syncline."

"In certain geologic aspects, the Alberta syncline is like our Permian basin of West Texas and New Mexico, but much larger. The discovery of the past three years make it look at least as promising as the Permian basin looked after the discovery of the Big Lake, Hendricks and Yates fields in the 1930s."

The syncline may well contain 30,000,000,000 barrels or more."

Local Priest At Coast VANCOUVER, June 24.—(CP)—A colorful religious ceremony of the east will be held here Sunday when Rev. Melvyn Skrypyk, Ukrainian-Greek Orthodox priest of Winnipeg, will arrive in Vancouver to minister to the Ukrainian-Greek Orthodox Church.

Rev. S. P. Symonchuk, minister of the same church, will be assisted by Rev. Peter Melnychuk, of Edmonton.

## BULLETIN and CFRN WILL TEAM AGAIN

Up-to-the minute coverage of Dominion election returns is in store for Edmontonians again this year as the new Bulletin and radio station CFRN team up.

Commencing at 6 p.m., June 27, from the editorial rooms of the Bulletin, CFRN will carry progressive returns of city, provincial and Dominion-wide voting compiled by Bulletin staff reporters.

Broadcasting will continue until all returns are conclusive.

Be sure to dial 1260 election night.

## Hot, Sticky Weather Plagues Eastern U.S.

By British Union Press. More hot, sticky weather plagued the eastern United States today, and experts said the new heat wave would intensify the multi-million dollar drought.

The weather bureau said no rain was in sight for the entire weekend.

Showers were predicted for the central states and cooler weather headed out of the northern plains, but rain for the upper Mississippi valley.

NEW ENGLANDERS were somewhat more fortunate. Heavy showers had eased the forest fire threat. A five-day ban was lifted on entrance of unauthorized persons into the Vermont woods and resorts again opened their gates to vacationers.

Vacationers elsewhere were promised a comfortable weekend. The weatherman said no heat waves were coming up in other sections.

California may be due for more near-normal temperatures, he said, and there will be scattered hot spots throughout the south-west, but rain will be clear and sunny.

## Man Hurt By Bear-Mauling

D. B. Bell, an Alberta government lookout, is "resting comfortably" in Edson hospital today after he was mauled by a bear yesterday, 45 miles north of Edson.

Entrance is 135 miles west of Edson. Bleeding profusely from leg lacerations and weak from loss of blood, Bell made his way on foot 30 miles to the nearest highway.

A passing motorist took him to Edson where he is reported today to be in good condition and suffering only from superficial leg lacerations.

Largest single federal grant of the total is \$24,000 for new 40-bed Kinsler Union Hospital. The grant is to be paid in 10 installments of more than 1,000 square miles with a population of 5,500.

\$5,700 IN PLANE FARES Buhler Family Migrates Like a Flock of Birds

NEW YORK, June 24.—(AP)—The Buhler family, migrating in a flock like the birds, flew into New York yesterday—and it was hard to keep track of them without a scorecard.

Mr. Peter A. Buhler, the eldest son and the youngest five months old, left a single plane at La Guardia Field.

With 727 pounds of baggage, the family is en route from their home at Carroll River, near Nashville, to live in Astoria, Oregon, because they want to live in a warmer climate. They are farmers.

"We expect it to be a big rush for the Buhlers," said a spokesman for the airline. "We'll need a lot of extra seats and food."

## Stork Wins Race Up Cliffside

NORTH VANCOUVER, B.C., June 24.—(CP)—A stork delivered a baby to a two-pound premature baby on a stretcher today. The doctor and an ambulance man were struggling desperately to get the baby to hospital.

Barrier, the doctor, the child's father and neighbor battled through water and over slippery rocks with the stretcher on their shoulders to reach the top of the cliff path.

The baby was born while the stretcher crew maneuvered the mother across clumps and mud on the point to hospital.

Grabbing the newly-born child, the doctor rushed to hospital in his car, while the men continued on with the mother to safety. Today, the baby, in an incubator, and the mother, are both satisfactory.

Sask. Hospitals Get \$65,000 Aid OTTAWA, June 24.—(CP)—A total of \$65,000 in federal grants has been given over to hospital construction in Saskatchewan, Manitoba and Quebec.

Three other occupants of the plane, Mrs. Buhler and her daughter, were flying to a hotel in New York, recovering from extensive injuries.

Explosion Kills 16 TOKYO, June 24.—(AP)—A party's large chemical fertilizer plant exploded today, killing 16 persons and injuring 32 others, it was reported.

DEATHS RECORDED TODAY Delain, Mrs. Patricia, 65, died of cancer.

Delain, Mrs. Patricia, 65, died of cancer.

## Alta. Farmer Gets Chance

OTTAWA, June 24.—(AP)—An Alberta farmer who was refused when he tried to exercise an option to buy his farm, has been given support from the Supreme Court of Canada.

The court dismissed an appeal by Joseph Milner of Taber, Alta., against an Alberta appellate court decision that he had lost his option to buy his farm.

The court dismissed an appeal by Joseph Milner of Taber, Alta., against an Alberta appellate court decision that he had lost his option to buy his farm.

Company commenced daily drilling a water well on the Kingsway property.

## Key Cod War Figure, Greek Premier Dies

ATHENS, June 24.—(AP)—Themistokles Sophoulis, Premier of Greece, died today.

He was 88 years old. Death occurred at his summer residence. Although he had been ill, he was near death last night, his death at this time was unexpected.

Sophoulis, a key figure in the recent struggle to halt the march of Communism, was regarded as a hero by his followers as the man-made premier by the United States.

VITAL COO The venerable Liberal party leader was an important cog in the Truman doctrine which United States aid went to Greece, fighting a war against Communism in the Balkans and Turkey, under the shadow of the Russian bear.

Themistokles Sophoulis was a prominent Samian politician named Panagiotis Sophoulis. He was educated in Athens and studied law at the University of Athens. He was a member of the Hellenic Parliament and served as Minister of Justice and later as Prime Minister of Greece.

Two-piece velvet lounge in green or wine. Two velvet finished and tables. Two satin cushions. Occasional chair. Table lamp. Lamp shade.

A Woodward SPECIAL. \$172.50

Complete Ensemble. Woodward's Furniture Section, Fifth Floor

## Parallel Drives Dig Out Voters

Politicians Not Only Ones Inducing Voters To Vote

By The Canadian Press  
"Vote for me!" cried the politician. "Vote!" urged those aware that an uncast ballot is a step away from democracy.

Amos Canada during the last seven weeks two parallel campaigns were waged as the country pointed to June 27 election day. On the one hand, 848 candidates and their supporters fought to attract the voter on a personal basis as their right. On the other, many disinterested bodies tried just as hard to see that Canadians exercised their democratic right to vote for anyone.

**MANY METHODS**  
In the forefront of the campaign were newspapers, radio stations, chambers of commerce, boards of trade, veterans' associations, service clubs and individual business leaders. Many and diverse were the methods used to dig out voters.

8,000,000 voters in going to the polls Monday to elect a government truly representative of a majority of the people.  
In constant use was the old slogan: "Vote as you please, but vote." But there were others in Vancouver. It was: "It's vital—Vote in Montreal." The mark of a good citizen: "N.C." and its favorite: "21% WONT VOTE."

The young men's section of the Montreal Board of Trade conducted a scientific sampling of potential voters that pointed up the need of the get-out-and-vote campaign. It reported that 21.3 per cent of eligible voters in Montreal do not intend to exercise their franchise. Of that number, 41 per cent said they were "too busy" and 17 per cent said "it's too hot."

The Canadian Legion early in the campaign launched its "Operation Vote." Its 2,000 branches co-operate with community organizations, providing Canadians with newspaper advertisements, radio and poster to get out and vote.

**"VOTE"**  
In Regina, in Winnipeg, in Toronto—in almost every city and town—the various chambers of commerce and similar organizations posted stickers on street car windows on telephone poles and walls and used other means of broadcasting the message: "Vote."  
The campaign's result will be known Monday. That's when the popular vote tables will show how many more voters turned out than the 524,150 who did so in the 1945 election.

**Oldsters On Cycles Want Wind to Tour**  
SHEFFIELD, England, June 24.—(CP)—Three elderly men, planning to cycle 869 miles from London to John O'Grady, have worked out it that if they do it in August they will have the wind behind them.

Gordon Shaw, 60-year-old draughtsman, and a friend will have George Jewett, 63, steel grinder, pedalling behind him. Tom White, 61, retired railway clerk, will ride solo.  
"I still belong to a cycling club I joined in 1938," Jewett says.  
The three expect to do 60 miles a day and average eight miles an hour in their end-to-end tour of Britain.

## ROOSTERS HAVE POT TO STEW IN

BRIDGEWATER, Mass., June 24.—(AP)—If prisoners at the state farm encounter an occasional piece of tough meat in their chicken pit, this probably will be the reason.

Twenty-eight game cocks recently served in a gaming raid have been turned over to the institution, and Sheriff Thomas Hunter has announced they will be served as chicken pie in the near future, along with 1,000 pounds of ordinary food.

## CLA Elects New Slate

WINNIPEG, June 24.—(CP)—Miss Kathleen R. Zeilich, chief librarian of Westmount, Que., public library, yesterday was elected president of the Canadian Library Association in convention here. She will succeed Miss Elizabeth Dales of Winnipeg.

Other officers include Edgar S. Robinson, Vancouver Public Library, treasurer. Annual elected council members are: Miss Margaret Clay, Victoria Public Library; Miss Louise Riley, Calgary Public Library; Miss Margaret Sherlock, University of Alberta Library.

Section chairmen include children's, Miss Margaret McTaggart, Fort William Public Library.

## Boy Locked in Closet Shuns Mother in Court

BOSTON, June 24.—(AP)—In a trembling voice, Geri's Sullivan, 14, yesterday said "no," he did not want to speak to the mother who is charged with keeping the boy hidden in a padded room most of his life.

It was the first meeting for mother and son since March 14, when Geri's first escape to the outside world.

At the time the mother, Mrs. Anna Sullivan, 43, sobbed a story of how she had tried to keep secret the boy's illegitimate birth.

**CLOSED HEARING**  
They arrived at juvenile court yesterday for a closed hearing before Judge Frankland Miles, who will decide if his mother is guilty of neglecting him and whether she would retain his custody.

Just before they went into the hearing, however, they came face to face.

The mother's counsel, Daniel J. O'Connell, said to Geri: "Don't you want to speak to your mother, Geri?"

The boy turned his head away and said nothing.  
"Don't you want to say hello?" O'Connell asked.  
Geri's voice shook as he said "no."

**Playful Whales**  
TVEDERSTAD, Norway, June 24.—(CP)—Two mackerel fishermen are still shaking over their recent experience with two 40-foot whales, who toyed with the tiny boat for more than an hour. The whales rose slamdown, then began ramming the boat, trying to upset it. They lifted the boat from the water several times before trying to seal the throat and heading out to sea.

## BLIMP NOT SO HARD TO FIND

OAK RIDGE, Tenn., June 24.—(UP)—The Atomic Energy Commission found it easier to track down one of its baby weather blimps than it did some missing uranium. The silver-colored blimp escaped its moorings and was found in a deflated heap in the front yard of a housewife near Lenoir City, Tenn., about 20 miles away.

## PM Hounded By CSU Picketers

SYDNEY, N.S., June 24.—(CP)—Twelve Canadian Seamen's Union pickets, some carrying placards, hoped to track down one of Prime Minister St. Laurent's plane yesterday and crowded around it to ask him for a statement on the shipping strike.

Mr. St. Laurent said he had no statement to make. The pickets stayed near the plane until Mr. St. Laurent took off for New Brunswick.

**REPORTER'S BEATING** while investigating Ku Klux Klan is told to Walker County sheriff Grover E. Baggett, Clarke Stillworth (right), of Birmingham Post, says he was flogged by two men at Summit, Ala. Sheriff Baggett has been recommended for impeachment by Walker County grand jury on 10 counts for neglect of duty and corruption.

## 50,000 Service Voters Eligible

OTTAWA, June 24.—(CP)—The system Canada devised to give her fighting men a wartime vote is being projected into the peace for the first time in the June 27 federal election, and it has its captivating factors.

For one thing, it could mean a belated victory or defeat for some candidates because results of a special early poll to be held from June 26 to 28 won't be known until July 2. Its provisions cover an estimated 50,000 men who may vote in civilian booths instead.

**FIRST TRIED IN 1945**  
The system was first tried out in the election of 1945, then in the conscription poll of June 1945. It will give a vote to men stationed anywhere except some camps in Britain and the United States where Canada has a few exchange officers.

It embraces permanent force troops in all three services who are 21 or more as well as war veterans still in hospital and reserve force servicemen temporarily in uniform at summer camps or aboard ship. Officials say this covers a potential 45,000 regular and reserve troops and roughly 8,000 veterans.

**NAME OWN RIDDING**  
Regular servicemen had from last August to January to say where they wished to vote in the election. Unless they changed in their riding would be the one they lived in on enlistment and their ballot would be sent there. If they wished to change there had to be proof that the new riding was one they had lived in permanently at some time; they couldn't change merely to vote for someone they liked.

Officials say only a detailed search of records would show how many men did change.

## Peer Resigns Party On Steel Legislation

LONDON, June 24.—(Reuters)—Baron Milverton of Lagos, a Labor peer and former colonial governor in Africa, the Far East and the West Indies, yesterday resigned from the Labor party because of the government's decision to nationalize Britain's steel industry.

He announced his resignation in the House of Lords when the bill to nationalize the industry was being considered.

Lord Milverton said he was born free and spent the bulk of his life in teaching what freedom means "to somewhat reluctant pupils in backward countries."

"I am very loath at my time of life to reverse this process and to endeavor to sell the advantages of slavery to a people who were once free."

"Perhaps it is because my own experience in administration has shown me how unrestricted bureaucracy can strangle enterprise that I feel some doubt about the widening circles of government control."

# Egyptians to Get October Election

## Marital Law to be Lifted; Curbs on 'Elements' Stay

CAIRO, Egypt, June 24.—(UP)—Egypt's first general elections in five years will be held in October. Marital law will be suspended and freedom of assembly, speech and press will be restored to assure a free choice.

This was disclosed by Egyptian Premier Ibrahim Abdul Hadi Pasha yesterday in reply to a set of questions submitted by the United Press.

"The government will seek to adopt every safeguard for the complete integrity of the elections," he said.

**CURBS REMAIN**

At the same time, however, he said, the government would continue to curb "elements of chaos" and "criminals" and to suppress political assassinations and other political outrages.

"The elements of disorder and chaos will be given no chance to disturb the atmosphere of calm security prevailing in the country today," he said.

Breaking his long silence on the timing of the forthcoming elections, the premier said:

**NO DATE GIVEN**

"I cannot at this moment give the exact date on which the general election will be held. We are still engaged in adjusting the electoral constituencies in keeping with the increase in population during the last five years since the last general elections."

"These adjustments will be submitted to parliament during the current session. As regards the approximate date, it can be said that the elections will be held next October."

**WAFD TO FIGHT**

The premier's present cabinet consists of Sadiq, Constitutional Liberals and Nationalists, with a sprinkling of Independents. Sadiq and his cabinet hold more than 200 of the 254 seats in the chamber of deputies. The remainder are held by Independents, Nationalists and dissident WAFDists.

Principal opposition party is the WAFD, headed by war-time premier Mustafa Nuh Pasha. The WAFD refused to participate in the 1945 elections on grounds that the government was "manipulating" the votes. However, the WAFD party already has announced that it will take part in the next elections regardless of what the government may do.

**HAPPY ENDING**

A young man wanted to marry, but over him hung a cloud he thought would blight any union he made. His father suffered from the dread bleeding malady, haemophilia. His sister had married, and one of her children was afflicted.

The clinic, as in all cases, asked for complete family histories as both he and his intended wife could provide. The clinic assured the young man he could marry the girl he wanted and have healthy children.

**Men's Press Club  
Wishes Women Best**

HALIFAX, June 24.—(CP)—The President C. R. McElhinney of the newly-formed Press Club of Canada yesterday sent greetings wishes to the annual convention of the Canadian Women's Press Club in Vancouver.

"Best wishes for the success of your convention," Mr. McElhinney said in a telegram.

# MEDICAL JOURNAL TAKEN IN

LONDON, June 24.—(CP)—A deaf-and-dumb speaker tried to explain the National Health Act to a company of deaf and dumb. He dislocated three fingers.

That's the story which reached the outer columns of the British Medical Journal, reporting a speech to housewives by Sir Allen Daves.

Sir Allen later confessed: "It was a story I made up on the spur of the moment."

**Life Begins At 82**

WHITESBURG, Ky., June 24.—(AP)—Jesse Cook, 82, who has only one leg, walked 13 miles from his home at Whitesburg, Ky., to be married for the fourth time. After the ceremony, the couple left on foot for Democrat.

**Get Mansion**

BARROW-IN-FUNNESS, England.—(CP)—Abney House, an engineering firm's palatial guest house built in 1914 at a cost of £35,000 (\$340,000), has been sold to Barrow Corporation for £2,000. It will become a home for old folk.

# Co-Ordination Lack Wastes Farm Study

By Val Sears  
VANCOUVER, June 24.—(CP)—Agricultural research is going to waste, delegates to the Agricultural Institute of Canada convention decided here yesterday.

"The wastage" resulting from lack of co-ordination between the Dominion farm experimental bureau and the individual farmer, is one of the main problems confronting Canadian farmers, the delegates maintained.

To find in "bridges" this education gap, the farmer-scientist passed a resolution appointing a committee on research to study the best methods of making new information and techniques available to farmers.

**BUSINESS ENDS**

The business side of the meeting ended yesterday.

Earlier in the day, panel discussion groups of the 350 delegates heard Dean F. M. Clement, head of the agriculture faculty at the University of British Columbia, discuss "the role of the state in the marketing of farm products."

Dean Clement advocated a compromise of security and stability, "the popular delusion today is to believe the state somehow can give producers security and security, and many seem willing to give up their precious freedom of choice and action for the mere political promise of security and stability."

# Marriage on Safe Physical Grounds Is Milan's Aim

By William Mairani  
MILAN, May 17.—(AP)—This biggest city of Italy's heavily-populated north is making a determined effort to cut down the number of those tragic children, who are born idiot, blind, deaf, dumb or otherwise deformed.

It is a municipal attempt to get marriage—one of the most hazardous of all human relationships—on safe physical ground. Milan believes its free municipal human genetics clinic is unique in Europe. It may not be duplicated anywhere.

**STUDY OF HEREDITY**

Genetics is the study of heredity that as an applied science, makes possible the vast modern improvements in animal breeding and agriculture from which the world benefits in more and better food and livestock.

It is not possible to apply genetics in the human field as it is in plant and animal laboratories. Heredity cannot be bred rapidly, or in such great numbers as laboratory animals. Nor, because of moral considerations, is it possible to wipe out an undesirable strain.

# Canucks Have Money But Are Not Spending

MINNAKI, Ont., June 4.—(CP)—Canadians have more spare money than ever before but they are keeping it in their pockets.

This was brought out today at the annual meeting of the Investment Dealers Association of Canada, which discussed the problem of getting this money to work in the industry and development of the country.

As C. O. Nickle, of Calgary, a guest speaker on oil put it: "If in years to come we cry should be raised that American capital dominates the Canadian oil and gas industry, it will not be because our friends across the border were more alive to and more willing to risk and share in the responsibilities and opportunities created by the findings of major reserves in Alberta."

**BANK ACCOUNTS TRIPLED**

D. Bruce Shaw, of Winnipeg, said:

"In 15 years, Canadians have tripled the money they are carrying in savings accounts, and more than three times as many people have bank accounts running into four figures."

The investment dealers asked themselves why they are not selling securities to these people. The answers by various delegates came to add up to this:

The income group which once bought the securities no longer has as much money to invest as the new groups, such as farmers and many wage earners which now have more money than farmers.

But familiar with securities. Alan H. Williamson of Vancouver, commented:

"I can recall when there were probably 100,000 people in the country who comprised the retail market for securities and who as a group were well-informed."

**SITUATIONS CHANGED**

"The situation has changed so that this group has disappeared and has been replaced, through the distribution of wealth, by probably 10 times as many people, having capital of from \$1,000 to \$10,000 or \$20,000."

Within the investment industry this has meant a change from selling securities to wide groups of people to one of selling to institutions such as life insurance companies.

The delegates seemed agreed that lower margins and prices have gone away with some of the former methods of selling, such as having sub-agents who kept in touch with available investment money in their individual communities.

This brought them back to the point of what they should now do to provide service for relatively

It will show up the shadow of tragedy, if it exists, to all who will ask.

It also will dispel, with the bright spotlight of science, shadows that are only imaginary. Professor Luisa Gianfranceschi, director of human genetics study at Milan University, who brought the clinic to the first project to fruit as a municipal office, gave an example of this happy function of her new preventive hospital.

**TAKE TROUBLE TESTS**

The clinic tries to keep from marriage men and women whose offspring might be tragic. It tries to prevent untold misery by preventing the terrible effects of hereditary disease.

It tests the blood of prospective brides and grooms and tells them if their blood types conflict in such a way that their children almost certainly would be born dead, or condemned to early death. The clinic cannot compel anyone to seek its advice. But for a modest fee from those who can pay and free to those who cannot.

# BURGLAR JUST GETS CREAM

COOMA, Wash. June 24.—(UP)—A hungry burglar invaded the home of Mr. and Mrs. Clark G. Seabloom in their absence. When the Seablooms returned they found the house ransacked, but nothing gone. Then when they got the milk off the back porch they found the cream of the four bottles missing.

**Honesty Test**

LOWESTOFT, England.—(CP)—Honesty boxes will be installed by Lowestoft corporation on their buses for passengers unable to pay the conductor their fares during rush hours.

## B.C. Not Seeking Rail Rate Favors

We'll Accept Geography, Says Provincial Counsel

VICTORIA, B.C., June 24.—(CP)—British Columbia does not seek special consideration in transportation because of its geographical position, the Royal Commission on Transportation was told today.

C. W. Braizer of Vancouver, provincial counsel, made the statement as the four-man commission under Hon. W. F. A. Turpin continued reception of British Columbia evidence in transportation problems.

**DISABILITIES STRESSED**  
Up to now provinces listed by the commission—the three prairie provinces have had heavy stresses on their geographic disabilities and have called for special treatment to help them reach distant markets and supply sources. "We are taking the position in British Columbia that we must accept our geographic position as it is, with whatever handicaps or advantages go with it," Mr. Braizer told the commission in reply to a question from chairman, Turpin as to the B.C. stand on this point.

**NAME AS OTHERS**  
However, he added that if the commission were to recommend preferential treatment for any province by way of compensation for geographic handicaps, then British Columbia would be considered. "Just the same as the others," Mr. Braizer was asked. Evidence yesterday was largely devoted to British Columbia's trucking industry with the commission receiving a detailed account of the province's trucking industry. The province's trucking industry is one of the most important in the country, and the commission is expected to make a recommendation on this point.

**NAME AS OTHERS**  
However, he added that if the commission were to recommend preferential treatment for any province by way of compensation for geographic handicaps, then British Columbia would be considered. "Just the same as the others," Mr. Braizer was asked. Evidence yesterday was largely devoted to British Columbia's trucking industry with the commission receiving a detailed account of the province's trucking industry. The province's trucking industry is one of the most important in the country, and the commission is expected to make a recommendation on this point.

**EXCLUSION ALLIRED**  
Under questioning by Alberta counsel J. F. Fawcett, the official declared he would not exclude any province from the study of his department keeps out new trucking companies. Mr. Braizer, however, questioned Mr. Fawcett's statement that the province's trucking industry is one of the most important in the country, and the commission is expected to make a recommendation on this point.

**RAIL RATES PROTECTED**  
He told Mr. Fawcett, also, that the province's trucking industry is one of the most important in the country, and the commission is expected to make a recommendation on this point.

**RAIL RATES PROTECTED**  
He told Mr. Fawcett, also, that the province's trucking industry is one of the most important in the country, and the commission is expected to make a recommendation on this point.

## RAZOR FOILS SUICIDES

NORTHAMPTON, Mass., June 24.—(UP)—A suicide-proof razor for use in jails and mental institutions was exhibited today by its inventors, two staff members at a veterans' administration hospital. Similar to an ordinary safety razor, it has a lock which prevents removal of the blade without a special key.

## Plane Crash Said Due To Wrong Plugs

SAN JUAN, Puerto Rico, June 24.—(UP)—U.S. government investigators heard testimony today that the wrong kind of sparkplugs were installed in a non-scheduled airliner which crashed near here June 7 with the loss of 53 lives.

The testimony was given by H. G. Wolf, head of a local aircraft repair service whose mechanics checked the plane before its departure for the United States.

Wolf said the mechanics were not aware that the plugs were suitable for the stratofreight C-46.

**SILK PROTEIN SYNTHESIZED**  
The scientists, headed by Dr. Paul C. Zamecnik of the Collis P. Huntington Memorial Hospital and Biological Laboratories of Harvard University, reported that giant silk worms had produced a synthetic substance which was identical to natural silk.

**RADIOACTIVITY PICKED UP**  
In another experiment, four silk glands were removed from two silk worms and placed in a test tube with radioactive amino acids. Subsequent tests showed that the radioactive amino acids had been picked up by the glands.

**COCONUTS FOR PHONIES**  
Later, a piece of the coconut fabric was removed. Placed under a Geiger counter it showed radioactivity. It also was tested against unpurified film, and after exposure of one to four weeks radioactivity on the film showed definite patterns of silk fibers.

## Canuck Brannan Plan Urged by B.C. Dean

VANCOUVER, June 24.—(CP)—A compensatory price policy for Canadian farmers, similar to the "Brannan plan" in the United States, was suggested yesterday by Dean F. M. Clement, head of the agriculture faculty at University of British Columbia.

Dean Clement said for retirement this summer, addressed a panel discussion group of 500 delegates at the Agricultural Institute of Canada convention.

**RADICAL DEPARTURE**  
The new policy is a radical departure from present government price plans which endeavor to reward the farmer in high prices by keeping production at low levels.

The compensatory program would encourage farmers to produce in quantity, let prices seek their own level, and let the government intervene only when necessary to stabilize the market.

**FREE CHOICE**  
In his discussion of "the role of the state in the marketing of farm products," Dean Clement emphasized "freedom of choice on the part of the individual."

**Want Fast Time**  
SASKATON, June 24.—(CP)—A request for Daylight Saving Time throughout the province was urged Tuesday by the Saskatchewan United Farmers Association.

**New Air Service**  
AMSTERDAM, June 24.—(UP)—KLM Royal Dutch Airlines yesterday inaugurated a new transatlantic service linking Amsterdam with Montreal and Caracas, a question of encouragement of Netherlands West Indies.

## Remote Voters Headache For Election Organizers

OTTAWA, June 23.—(CP)—The business of ensuring dropped out of aircraft, a few cast that Canadians in more rugged parts of the Dominion get a chance to vote is quite a chore.

The chief electoral officer, Jules Caspary, says that in some cases, such as in the Yukon, the Northwest Territories and Nunavut, the business of ensuring that voters in more rugged parts of the Dominion get a chance to vote is quite a chore.

**PRECEDENT PAYS OFF**  
Some weeks ago, Mr. Caspary made a trip to the Yukon to see how the business of ensuring that voters in more rugged parts of the Dominion get a chance to vote is quite a chore.

**THIRD CANDIDATE QUITS**  
While ballot boxes were being heaped up to vote.

**British Defence Action Rehearsal Echo 1939**  
FALFIELD, Gloucestershire, Eng. June 24.—(AP)—Ten years after Britain's civilian anti-air force began to take its stride on the eve of the Second World War, new civilian groups are being trained for defence action if an atom war comes.

**BALLOTS BY AIR**  
They'll now get their ballots by air.

**SPRING BREAKUP**  
Officials here were not quite sure what a pack train might be in that area at this time of year, but authorized the trip anyway.

**LITTLE MARGIE NORRIS** takes a jump like a veteran on her horse, Patsy. Twelve-year-old Margie is preparing for the gala gymnastics at Briarcrest Saddle Club grounds Sunday. Events in this "bigger than ever" sporting affair include judging of horses and riding and such novelty contests as musical chairs and button and sawdust races. All other saddle clubs will participate in the gymnastics which starts at 2 p.m.

## Sadie McDonald Weds Donald G. McIntosh

Amid a setting of pink and white peonies in silver baskets in North Edmonton Baptist Church recently Sarah Symington (Sadie) McDonald became the bride of Donald G. McIntosh.

The Rev. Edgar Roberts performed the ceremony. The bride is the daughter of Mr. and Mrs. H. M. McDonald and the bridegroom the son of Mr. and Mrs. John McIntosh. A dress of white moiré silk was chosen by the bride who was given in marriage by her father. It was fashioned with a lace yoke, draped shoulder line and long-sleeved sleeves and the full skirt terminated in a train.

### LONG VEIL

Her floor-length veil was caught to her head with a beaded coronet and she carried a cascade bouquet of American Beauty roses and white streamers. Her only jewelry was a string of pearls, gift of the bridegroom.

Margaret McDonald, who was her sister's maid of honor, wore a yellow dress with matching corsage and carried a colonial bouquet of mauve sweet peas, pink carnations and Tallman roses.

As bridesmaid Eleanor McIntosh

## Strawberry Social for Sunday Planned by Catholic Women

Strawberry social, under the auspices of the Catholic Women's League, will be held Sunday from 3 to 6 p.m., at the home of Mr. and Mrs. J. Lesburg, 10811 127 street.

Mrs. C. D. Kelly will receive, assisted by Mrs. W. Peet, Miss Mary Scullion and Miss E. Biddisale.

Pouring tea during the afternoon will be Mrs. Frank Conroy, Mrs. George Dearing, Mrs. Lucien Maynard, Mrs. P. R. Gaboury, Mrs. J. Bailey, Mrs. L. A. Giroux, Mrs. J. W. Connolly, Mrs. J. P. Biolo, Mrs. G. W. Steppay, Mrs. W. Schindler, Mrs. J. Scullion, Mrs. H. S. Reynolds, Mrs. J. A. Cornelly and Mrs. G. T. Galavan.

Convenor for the tea is Mrs. Lesburg. She is being assisted in making arrangements by Mrs. A. McRae. Assisting in serving will be Mrs. A. Chaitin, Miss Margaret O'Brien, Miss Elizabeth O'Brien, Miss Kathleen Conroy, Mrs. K. A. Pollock, Mrs. J. Kremer, Mrs. C. McElaine, Mrs. Wilson and Mrs. S. Docherty.

In charge of decorations will be T. Darlington, and Mrs. A. C. Woodman will look after the tea room. Mrs. T. J. Fitzgerald and Mrs. T. A. Miquelin will be treasurers for the afternoon.

Proceeds of the social will go to the Save the Children Fund.

Those serving were Mrs. C. M. McLeod, Mrs. P. K. Kendall, Mrs. R. Miller and Mrs. M. M. Cantor. Among those assisting were Mrs. C. S. McLeod, Mrs. E. F. Donald and Mrs. Maurice Van Vleet.

A gift was presented to Miss Biddisale.

**HONORING** Miss Mary Ann Beck whose marriage to Donald W. Patterson takes place tomorrow in Calgary, Miss Betty Derrough entertained recently at her home. Cossage was presented to the guest of honor.

**CHOIR** of Norwood United church held a miscellaneous service recently in honor of Miss Betty Derrough. Those who sang were Mrs. W. T. Young.

Wedding bells and pink and white streamers decorated the church parlor for the occasion. Gifts from the 30 guests were presented in a decorated basket by Rev. W. T. Young.

During the evening games were played and musical numbers were presented by Miss Shirley DeWitt and Miss Marjorie McTaggart.

**MANY GUESTS** from out of town attended the wedding Wednesday of Doreen McRae to Elmer William Thomas. Among the visitors were Mr. and Mrs. Gus Thomas, New Westminster, B.C.; Mr. and Mrs. R. Hovew, Alberni, B.C.; Miss Donna Colquhoun, Vancouver; Mr. and Mrs. Morley Tanner, Lethbridge.

**IN CALGARY** to attend the wedding of Miss Mary Ann Beck and Donald W. Patterson, were Mrs. Mark Hamilton Beck Jr. and Mrs. James King. Aunt of the bride, Mrs. King arrived recently from Belfast, Ireland.

**REGISTERED** at Jasper Park Lodge in the Canadian Rockies is G. A. Duffie of Edmonton.

**RECENT** bride, Mrs. P. A. MacIsaac, the former Muriel Taylor, was honored recently at a shower at the home of Mrs. James D. Fowler.

Little Cheri Belanger, dressed as a miniature bride, presented the gifts in a decorated basket to the guest of honor, Mrs. Ferguson Owens and Mrs. Louis Belanger assisted the bridesmaids.

**SALONS** ABC of the Macdonald hotel tonight will be bright with summer flowers tonight, when members of the D1040 Club hold their annual dinner.

**SWIFTING COLUMN** It's told how some women will follow a dress pattern to the letter, but when it comes to following recipes, they're as terrible as about measurement. Paper baking is an art and science. Exactness makes a difference!

There's a big difference between double-acting and single-acting baking powder. Use the one called for! Always use standard measuring cups and spoons.

Sift flour once before measuring. Pat the flour lightly into measuring cup by spoonfuls. Do not press flour into cup or tap it down. Level off with edge of spoon.

Pack brown meat down tightly when measuring. Should hold its shape when turned out.

**NEW** Swift's Recipe Book contains recipes and hints for beginners and experts. Get your copy, please name, address, and send with one Swift's Recipe Book to: Mrs. Martha Long, Dept. 418-36, Swift Canadian Co. Limited, Toronto 9, Ontario.

This daily feature is sponsored by Swift Canadian, maker of Swift's, the new kind of shortening which helps you bake fine cakes, pies, cookies, biscuits, etc. And Swift's is nutritious and digestible too!

## Cathedral Wedding Unites City Couple

Bride's Brother Performs Ceremony As Flowers Bank St. Joseph's Altar

St. Joseph's Cathedral was the scene of a pretty wedding recently, when Ida Dolores Forsyth became the bride of Harold Anderson. The bride's brother, Rev. Father Forsyth, performed the ceremony.

Early morning ceremony united the daughter of Mrs. R. R. Forsyth, and the late Mr. Forsyth, and the son of Mrs. C. Anderson, and the late Mr. Anderson of Vancouver.

White satin gown was chosen by the bride, who was given in marriage by her brother, Bernard Forsyth. It featured fifty-point sleeves and a small peplum, ending in a back drape. A headpiece of orange blossoms held her veil of net and lace, and she carried a colonial bouquet of pink roses and sweet peas centred with a gardenia.

Best man was Bradwell R. Forsyth, brother of the bride. Reception following the ceremony was held at the Seven Seas restaurant.

WOMEN RECEIVE To receive the guests, the bride's mother chose a turquoise dress with black tulle, and black accessories. Tallman roses comprised her corsage.

Mr. Forsyth proposed the toast to the bride. Leaving by plane for Calgary and Banff, the bride wore a powder blue gabardine suit with white hat and accessories.

### Mrs. Eric Duggan Heads Committee

Mrs. Eric Duggan heads the committee of the Junior Hospital League in charge of football programs for the coming season.

Reports of members on their progress in selling advertising for the programs were given at a recent meeting held in the public library.

Mrs. Allan Lobinger reported on the Emergency Housekeeping Service.

President, Mrs. W. R. B. Wilson was in the chair.

### Press Elections To Be Held Today

YANCOVER, June 24 (CP)—Mrs. Reta Myers of Vancouver and Mrs. Dorothy Taylor of New Westminster were nominated yesterday for presidency of the Western Women's Press Club now in convention here. Elections will be held today.

## Brodie-Clark Vows Exchanged Recently

JASPER, June 24—Lovely summer wedding was solemnized recently in Jasper United Church when Catherine Pearl, only daughter of Mr. and Mrs. Eric Clark, exchanged marriage vows with Walter Alexander Brodie, RCAF, son of Mr. and Mrs. Jack Brodie.

### Tea and Bazaar Planned Monday

Tea and bazaar, sponsored by the West Jasper Place Home and School Association, will be held Monday from 2:30 until 6 p.m. in the Centre school.

Donations of sewing or home cooking would be appreciated, and may be brought to the school after 11 a.m. Monday.

Proceeds from the function are to purchase library books for the school.

since the Toures don't care for outsiders.

LIVE IN TENTS The trip live in tents and are often on the borderline of starvation because of their own indolence—for only the lowest series work records of the tribe are handed down in legends and love songs feared throughout Africa.

"The highlight of our trip would be to film a 'Toureg wedding,'" said Norris. "They are great occasions with feasting, dancing and mystic rites—and it's the unveiled women who do the courting and choosing."

"Also," said Norris, "it is amazing what some women will risk for curiosity. A Toureg wife—willing to know if her husband is faithful while away from her—will sleep on an ancient loom. She believes that a spirit will come who, if he likes the look of her, will answer her questions—if not he will kill her."

RECEPTION HELD Following the ceremony, a reception was held at the home of Mr. and Mrs. L. McCuire, where Mr. Lopolinsky proposed the bride's toast.

For travelling, the bride wore a blue jersey dress with white accessories. A red rose corsage was pinned to her grey topcoat.

Mr. and Mrs. Brodie will make their home in Edmonton, where the former is attached to the RCAF.

## Glad Adorn Church For Recent Wedding

Gladol in various summer shades decorated St. George's Church recently when Myrtle Ilean Oberg became the bride of George Louis Costuros.

She is the daughter of Mr. and Mrs. G. Oberg and the bridegroom is the son of Louis Costuros and the late Mrs. Costuros, all of Edmonton.

Rev. P. Melnychuk performed the double ring ceremony.

A white satin gown with net and lace yoke was chosen by the bride for her wedding. The yoke of the fitted bodice was perforated.

A head piece of ostrich feathers held her finger-clip veil in place and she carried a bouquet of orchids, roses and staphanotis. Her only jewelry was a solid locket.

TWO BRIDESMAIDS Bridesmaids were Dorothy Robertson and Nancy Hannah. They were in yellow and mauve tulle, respectively and wore matching ostrich feather headpieces. Their bouquets were of roses staphanotis.

Little flower girls were nieces of the bride, Cheryl Lynn Oberg and Norma Jean Oberg. Their white tulle dresses with Dutch caps were complemented by colorful baskets filled with rose petals which they scattered before the bride and groom.

John Dragonoff and Jan Watson attended the bridegroom. Ushers were John and Harry Christoffer.

MOYER IN GREY For her daughter's wedding, Mrs. Oberg chose a grey floral crepe frock with grey hat, black accessories and a corsage of roses.

A reception for 300 guests followed in the reception room of the church where Gladol decorated the bride's table which was centred with a four-tier wedding cake.

Mr. Dragonoff proposed the bride's toast.

The couple spent a honeymoon at Banff and Lake Louise and have taken up residence at 11507 30 street.

For travelling, the bride wore a blue-grey suit with matching topcoat and white accessories.

## CNE Offers Salad Prize

Color, nutrition and appeal of your favorite salad might easily be worth \$20 to you at this year's Canadian National Exhibition.

Homemakers tossing together but salads these days in an attempt to honor the family appetite are reminded that the Women's Division of the Exhibition is offering prizes for the most artistic, nutritious salad turned out in the quickest possible time.

It will not cost the entrant as much as a leaf of lettuce, for all will be there to work with. Potatoes, hard-cooked eggs, cheese, tomatoes, lettuce, cucumbers, carrots, relishes, celery, fruit, garnishes and dressing will be provided.

Just send in your entry form to the Women's Division, CNE, Toronto.

Mrs. Kate Aitken, Women's Director, will send you a free admittance ticket, and who knows but you may walk off with one of the big cash prizes. Sorry, but professionals cannot enter.

Second prize is \$40, third prize \$20, and fourth prize \$10. Entries must be in not later than August 15.

## Radio Interference

CEDAR SPRINGS, Ont. (CP)—Two amateur radio operators found the interference too heavy when they lifted their radio antenna with a hydrogen balloon.

A low-flying aircraft took a low pass at the balloon, shattered it and cut the antenna.

## Free U.K. Dental Service Failing

### Dentists Are In Revolt Over Gov't Cutting Fees

By Edwin Shank

LONDON, June 24 (AP)—Britain's free dental service under its state health program is creaking and approaching breakdown, say spokesmen for the British Dental Association.

One key reason, they say, is that the dentists themselves are in revolt. They are protesting a recent government order which halted dentists fees payable under the national health program in excess of £400 (£1,600) monthly. Dentists agree their incomes now are higher than before the service became effective but they object to the "arbitrary cut."

**OFFICES CROWDED**  
The situation is also background in the neglected condition of Britain's teeth. Dentists' waiting lists are now 50 per cent more crowded than before.

The health ministry estimates 4,000,000 persons will take advantage of the service annually. But there is a serious shortage of dentists. A government dental committee reported 20,000 dentists could be used without saturation—an increase of 8,000 over the present number.

**FEAR BLACK MARKET**  
The British Dental Association immediately blamed the ministry of health and announced it will put its case before the public and parliament.

In parliament, a dental surgeon and labor minister, Dr. John Hare, warned the government its regulation cutting dentists' incomes would create a "black market in dentistry."

When remuneration for dentists

## GAMBLERS GET TOUGH BREAK

LOS ANGELES, June 24—(UP)—Slot machine devotees, crapsaholics, horse players and card sharks could benefit from a course in mathematics, "probabilities," to be given this summer, Prof. Paul Hest will teach summer school students at the University of California campus about odds and elements of chance. But he is restricting the course to serious students of mathematics.

## Many Drivers Lose Licenses

SACRAMENTO, June 24—(CP)—An average of six to seven Sacramento motorists a day since April 1 have lost their drivers' licenses on account of either drunk or dangerous driving, George Dickson, chairman of the Highway Traffic Board, said today.

was settled, it was decided a dentist should work 20 chair-side hours weekly. If he worked more, it was felt there would be a danger of lost efficiency. The remuneration based on those hours, allowing for operating expenses, gave the dentist a net before taxes of about £1,900.

The ministry of health said it found some dentists were working long hours driving their buses in some cases as high as £4,000 to £5,000 before taxes.

## Worms Do Ploughing Job Farmer Couldn't Himself

By Harman W. Nichols

WASHINGTON, June 24—(BUP)—When the National Geographic Society isn't measuring the distance between Urlich, Mo., and Istanbul, it really gets down to earth. Like looking into the habits of mice and earthworms.

What got the society excited about mice was a little piece in the papers from London the other day. It said that a British couple put a brake on all traffic to escort a house across an intersection.

The society didn't admit that it swallowed the yarn, but it went to the library (taking me along) and looked into the matter of the history of mice and men.

**MOUSE INVASION**  
We found that classical writings had a lot of mention of mice. Invasions of Greek and Roman territory. The records laid low crops brought on epidemics, and some times drove even man into hiding. The Romans once had mouse-catchers on the public payroll.

Mice, even though they make a tidy squeal, also have their place in man's life. Doctors in laboratories experiment with 'em to see if they can't cure many of cancer, the common cold and what not. I know a man who makes a pretty nice living running a "mouse farm."

There also are a lot of people making big dough out of raising the lovely earthworm, or as they used to say in Urlich—Fishing. Nobody ever challenged the fact that the ruffed grouse, the duck-billed platypus and the robin would have a rough old time were it not for the worm.

The farmer doesn't write many fan letters to the editor, but he would be unhappy if he didn't have any (or earth) worm on his place. They are plowmen, really. Tillers and conditioners of the good earth.

The research the geographic society has done on the earthworm is a dumb one. It's blind, deaf and can't talk back to a bird about to gobble it. It tunnels, feeds and eats. It lives on the very earth itself and in eating its way

some it sometimes goes down six feet—literally doing a job of plowing the farmer couldn't do with a modern plow.

The worm sort of "worms" around the roots in the wheat fields and pastures, giving the plants a chance to breathe.

**SOME HUGE ONES**  
Earthworms are found almost everywhere, except in the bitter cold regions and the desert lands. Some of them are only a couple of inches long. But the maggot-collies, found only in southeastern Australia, average four to six feet in length.

Some even grow up to be 10 feet long and scare people like a snake would.

In the land we love here, earthworms may run as high as a million to an acre and our geographic man swears that they "eat" as much as 20 tons of digested earth residue to the surface (per acre) each year.

The New York Bronx zoo has three platypuses which came from Australia. They are very unhappy without worms. So the zoo people made them happy platypuses by setting up a worm breeding farm in the basement of that lion house.

I am told there are a dozen or so earthworm farms in the country. The farmers are said to be wealthy enough to drive Cadillacs.

## YOU LEARN A FEW THINGS

### Lunch in a Zoo Can Be Mighty Interesting

By HARMAN W. NICHOLS

WASHINGTON, June 24—(BUP)—A circus is about as hard to park as the state of Texas. Unless you know Bill Mann. Bill has one—at least one set of one—in the back yard of the Washington zoo right this minute. Dr. Wilbur M. Mann, director of the zoo, calls himself the nation's No. 1 circus fan and he's never been known to let a showman down. It was like this:

Will Hill, a 78-year-old trainer of elephants from Miami, kind of mis-read his invitation to take part in the Shrine Circus which opens at Ulline Arena here on Monday. He got there a week early.

So he called his old friend, Bill Hill, and told him about it. Bill Hill (two lady elephants) and six ponies and a dozen dogs and a couple of monkeys?

Good old Bill told him to bring 'em out to the zoo. And before Bill could shake up a fork of hay there was Will. He came prepared, too—as do all visitors to the zoo.

I got to the zoo right in the middle of things—just as Will Hill and Bill Hill were shaking hands. Behind Will were two trucks, one full of animals and the other full of hay and other things, two bales of hay a day for Tulsa and Judy, all kinds of bags of linen and oiled and enough vegetables to feed a family of 15.

Bill ... said why didn't we go to lunch? We did. Lunch at the zoo with Bill M. is an education.

Will Hill told about getting the Biggles in the winter colony at Miami. How the fragrance of "Tula" and "Judy" didn't exactly charm the society ladies and how he got around that by spraying expensive perfume over the elephants.

Also jabbering with us was Roland Lindeman who operates a game farm at Catskill, N.Y. "There," said Dr. Mann, pointing with a lead fork, "is a good operator." There sure are one.

## Iron Curtain Barriers Hit Rome Holy-Year

By Joseph J. BAICICH

ROME, June 24—(UP)—Only a handful, by previous comparison, of pilgrims from Central European countries behind the Soviet Iron Curtain are expected to come to Rome for the Holy Year of 1950.

Government restrictions on foreign travel, plus increased pressure on the church and those who support it, will reduce drastically the ranks of the devout from Poland, Czechoslovakia, Hungary, Romania and Yugoslavia.

**HOLD MANY DEVOUT**  
In those nations the Roman Catholic Church remains one of its most trusted, and great numbers of them came to the Eternal City in 1925 for the last general Holy Year.

A special Holy Year observance was called in 1933 and also was well attended by Central Europe. Recent reports reaching the Vatican indicate, however, that the desire to attend is just as strong now as it was before the imposition of the Iron Curtain.

**COMMITTEES FORMED**  
In Czechoslovakia and even Bulgaria, where Communist pressure is extremely heavy, national Holy Year committees have been formed. These groups hope to obtain permission from their government to send "not only Roman Catholics, but also large groups of schismatics (Orthodox) pilgrims" to Rome, Vatican sources said.

It appeared unlikely, however, in the light of recent events, that the committees would succeed. Church authorities are waging a strong campaign to ensure that the ranks of the faithful along the roads to Rome next year include as many Germans as possible.

The church is exerting influence to organize pilgrimages from Germany to Italy, seeking to make

known to all Germans the arrangements for the great holy journey and to facilitate the journey of those who are able to attend.

**1,000,000 EXPECTED**  
The Vatican expects large numbers of pilgrims from the traditionally Catholic countries and from those nations with large Catholic minorities.

The central committee handling arrangements for the Holy Year is faced with the problem of finding 1,000,000 pilgrims.

Leggings, food, transportation and tours will be arranged by the Peregrination Romana ad Petri Sedem, a branch of the central committee. This group calculates that the average pilgrim will spend three days in Rome.

**PAPAL APPEARANCE**  
In addition to 22 canonizations and beatifications, the jubilee will be enhanced by the presence of Pope Pius XII twice a week in St. Peter's Church for the celebration of Mass for the pilgrims.

One of the important projects being pushed to completion is the international Center of the Catholic Action, a modern building in front of St. Peter's Square. It will have a theater, an auditorium, hotel facilities and a printing plant.

Opera has three hearts, according to finding of a U.S. Bureau of Fisheries expert.

## Automatic Set-Up Routes 50 Trains on Single Track

By Rae Correll  
MONCTON, N.B., June 24.—(CP)—Three men astride Canada's vital eastern rail artery and juggle 50 trains a day between here and Toronto, N.S., on a single-line track.

Canadian National Railway's 3,000,000-gadget which enabled one man to route troop and mail trains to Halifax, Sydney, and at the same time handle westward streams of raw material.

Central Train Control is based on a remote-control system of the main line to Montreal. When in operation, the system is controlled by a single man in the control room at Moncton. He has a radio link with the trainmen who are in the engine houses at various points along the line. He can see the position of every train on the line and can set the signals to route the trains as they come. He can also see the position of every train on the line and can set the signals to route the trains as they come.

One of the myriad knobs is flip-brake and 20 miles away a signal beam changes color. The flip-brake is a small, round, light-colored button with a warning signal. Another handle is turned, a small, round, light-colored button with a warning signal. Another handle is turned, a small, round, light-colored button with a warning signal.

### IT'S NO HOBBY THERE

## Even Chess Is Part Of Russ Propaganda

OTAWA, June 24.—(CP)—Even chess is part of the Russian propaganda drive, Dr. A. P. Borzitschuk, Russian chess champion, said today.

Dr. Borzitschuk, a displaced person who arrived in Canada three weeks ago, discussed chess in Russia during an interview which followed a performance at the Civil Service Recreation Association Chess Club. He pointed out that chess is not a game of chance, but a game of skill. He said that chess is a game of skill, and that it is a game of skill.

He said that chess is a game of skill, and that it is a game of skill. He said that chess is a game of skill, and that it is a game of skill. He said that chess is a game of skill, and that it is a game of skill.

## No U.S. Aid Asked For Hong Kong

LONDON, June 24.—(Reuters)—Britain is not seeking United States help in the defence of Hong Kong, which is a British responsibility, a foreign office spokesman said last night.

He denied any suggestion that Britain had asked for aid from the United States and the United States had refused.

He added that considerable British reinforcements had been ordered to Hong Kong.

Shotton to Coach Baseball All-Stars  
CINCINNATI, June 24.—(AP)—Barry Shotton, manager of Brooklyn Dodgers, yesterday was notified of his appointment as a National League All-Star coach by manager Billy Southworth of Boston Braves, who will pilot the team.

Shotton will remain out of uniform and do his coaching from the bench.

Annual game will be played in Brooklyn July 12.

Black Flies Bite Hard  
MELBOURNE, June 24.—(CP)—Twelve head of cattle in this district were reported killed this year from attacks of black flies. The flies were blown in by high north-westerly winds.

### IDEAS VARY ON FREEDOM AND NUDITY

ROME, June 24.—(AP)—Dispatches from Rome said two night watchmen in a factory there saw a young man and a young woman get out of an automobile and stroll around completely naked at three o'clock this morning.

One of the watchmen went to the police. The other stayed with the couple. They remained there until dawn, and that they had heard that a woman of complete freedom.

When the watchman said that even in Italy a stroll in public without clothing is considered a matter for the police, the pair got in their car and drove off in a huff.

A Danish postmaster, Elmer Holmboe, conceived the idea of the Christmas underwear sale.

## Nationalists Try New Experiment

### Formosa Scene of Attempt To Build China Democracy

(Nationalist leaders of China, driven from Nanking and Shanghai by the Communists, are starting an experiment on the island of Formosa. They propose to turn it into a laboratory to try to prove to the Chinese people that democracy will work better than Communism. Arthur Goss, United Press manager for China, reports on the experiment in the following dispatch.)

By Arthur Goss

TAIPEH, Formosa, June 24.—(UP)—The leaders of Nationalist China still hope to build a model democracy that will make the Chinese people prefer their type of government to that of Communism. Formosa is their laboratory.

On this island 130 miles off the South China coast, they plan to piece together their smashed government. Formosa has a population of 7,200,000. That is an increase of 25 per cent in the past 18 months and it is almost the bursting point for a country whose chief products are rice, tea and camphor and whose productivity is low.

They are gambling. But if their last experiment succeeds, they hope that the Chinese and the world will be shown that Communism cannot compare with a well-run democracy.

NO IMPEDIMENTS  
Nationalist leaders believe that Formosa is a safe laboratory. They say that the Communists can't invade the island.

The Nationalists always said that western officials criticized them, that they could not effectively purge their regime while having to fight the Communists. That unhampered by Communism, with months instead of hours at their disposal, they hope to make democracy work.

Meanwhile, the last military stand will take place at Chungking. Second World War capital. Although China north of the Yangtze is in Red hands, and Communist armies are surging toward Canton, the Nationalists say they will fight on in the southwest China.

And their long-range hope is that the expert on Formosa, combined with resistance on the mainland, will topple the Communists. The dream, of course, would be to have a nightmarish situation in the Japanese in May, 1945, after a century of occupation, it was reawakened to China by the Communist declaration of Dec. 1, 1943, and the

### POLICE SEEK SPORTING THIEF

VANCOUVER, June 24.—(CP)—Police today sought a sporting thief. He raised the pro shop at the Shaughnessy Golf Club, swiping with \$500 worth of loot.

It included 14 dozen golf shirts, four golf clubs, socks, sport shirts and a small amount of cash.

### Record Tumbles At 'Peg Track

WINNIPEG, June 24.—(CP)—Gay Thought chestnut filly from the Meadowdale stables of Winnipeg, established a new mark for two-year-olds at Polo Park yesterday. Gay Thought covered the four furlongs in 48.1 seconds, four-fifths faster than the old mark set in 1945 by Elm Do.

Favorites again took a firm hold on proceedings and as a result the Daily Double from West Hill, winner of the special race to Mr. Sands, who won the second early, returned the small figure of \$14.45.

### Falkenburg Beats Off Net Upset

LONDON, June 24.—Defending champion Falkenburg and Jarrold Crosby yesterday nipped off a double of threatening upsets in lawn tennis in the last 18 of the Wimbledon tennis championships.

Other seeded male stars—Ted Browder, Frank Parker and Pancho Gonzales of the U.S., and Geoff Brown of Australia—survived a day of rain but the rain did not frighten witnesses by more than 72,000 fans.

Fourth-seeded Falkenburg won 6-4, 7-5, 6-4, 6-4.

### U.K. Plane Industry Is Hitting Target

LONDON, June 24.—(Reuters)—British aircraft exports for the first four months of 1949 amounted to \$11,322,920 (\$1,061,937). The Society of British Aircraft Constructors said yesterday. This was, on average, an increase of 10 per cent over the same period of 1948. The 1949 export target of \$12,000,000. However, there was "ample evidence" that the target would be achieved.

# Big Gas Find Near Thorhild

By Don Flach

A gas find of major proportions has been made in the area west of Thorhild, according to announcements made in Calgary by geologists of the Sunco, Oil Co. The geologists, according to the Calgary report estimate that gas flow at the well is at the rate of 10,000,000 cubic feet daily.

The reported find was made at the Pacific Sunco No. 2 well on lot 5-5-5-25W4 which is about eight miles west of Thorhild and 40 miles directly north of Edmonton. The well is being drilled as a joint venture by Pacific Petroleum Limited, Atlantic Oil Limited, and Sunco Oil Company, a large United States company from Tulsa, Oklahoma.

**FIRST HAD 2 MILLION**  
Previous venture in the same area by the team found a gas flow of 2,000,000 cubic feet daily in the Lower Cretaceous. The No. 2 well will proceed drilling to test for the 10 million of the Devonian.

In Edmonton, Dr. Naug, geologist for Pacific Petroleum, said proper evaluation of the gas flow could not be determined and evaluated the completion of the well. Meanwhile Pacific Petroleum has completed arrangements with the Rice Drilling Company of California for test of a 5,760 acre farm and from Imperial Oil of 10 miles south of Newell. First well on the property will be drilled on lot 5-5-5-25W4 which is about 13 miles west and north of Pacific Sunco No. 2. The well is expected to start in about two weeks.

**PASCO NO. 3 IS DRILLING**  
At 2,554 feet No. 3 is drilling is set on lot 4 at 614 feet.

**BEAR DRILLING THREE**  
Near Hollywood at Alhambra is drilling at 2,208 feet in the Devonian. Near Villa is approximating its original depth of 4,200 feet reaching below the hole caved in. Bear-Hill at Pelican Rapids is drilling at 2,300 feet and will be ready to set surface casing shortly. Bear-Hill is still moving right to its site about 30 miles west of Newell. Preliminary test of the Newell No. 1 in the Whitehead area about nine miles south of Newell is being done in 15 barrels hourly. Only a small portable separator was used in the test and the gas was carried with a very restricted flow.

# Stocks Mark Up Slight Advances

Metals Show Best Gains; Early Prices Strongest

TORONTO, June 24.—(CP)—Prices pushed their way slightly higher in dull trading on the Toronto Stock Exchange today. Base metals showed the best gains and gold moved under pressure of realizing sales on recent gains. A few selected industries were higher while western oils were at a standstill. Volume was about 477,000 shares.

Early prices were about the strongest of the session. Trading slowed to a crawl as the session progressed and some advances were whittled down.

Almost all base metals were higher, climbing in mid-session. Silver and gold were strong with most of the profit-taking confined to the precious metals.

Food, refining oils, liquors and construction brightened in industrial. Papers and utilities were narrowly mixed while a few banks slipped.

**NEW YORK MARKET**  
EDS FORWARDED  
NEW YORK, June 24.—(AP)—The stock market today wound its way forward in slow trading. The advance didn't amount to much but it was at least a small step up in a recovery move after the market had cranked to a 4 1/2-day low.

Gains ranged from fractions to almost a point. Most were fractional gains. The market was a little more active than it has been for some time. A number of stocks failed to make much headway. The market was a little more active than it has been for some time.

Trading was no more than routine. Turnover dropped to a rate of only 100,000 shares or so for the full session, which would make the day the least of the session in recent years.

Canadian issues were higher. Metals, particularly gold and silver, gained 1/2, and Distillers Segments gained 1/2. Dime Mines was unchanged.

On the curb, Lake Shore was up 3/4, 30 feet of drilling, and 20-minute test from 6,882 feet below the hole caved in. Bear-Hill at Pelican Rapids is drilling at 2,300 feet and will be ready to set surface casing shortly. Bear-Hill is still moving right to its site about 30 miles west of Newell.

Preliminary test of the Newell No. 1 in the Whitehead area about nine miles south of Newell is being done in 15 barrels hourly. Only a small portable separator was used in the test and the gas was carried with a very restricted flow.

APPOINTED district freight agent for Canadian Pacific Railway at Edmonton, C. S. Doupe, of Fort William (left) will take over his new duties July 1. He succeeds H. K. Wright, who has been transferred to Brandon after service at Edmonton since March of 1948.

# Coarse Grain Futures Firm Toward Close

WINNIPEG, June 24.—(CP)—Coarse grain futures showed a firm trend at the close on the Winnipeg Grain Exchange today. Oats and barley came into routine buying by shippers while offerings were light.

Some selling was influenced by moisture conditions over the prairies and reported crop damage.

Rye attracted demand through export accounts. Trading was moderately active.

The United Kingdom was allocated 80,000 bushels of wheat under the Anglo-Canadian wheat agreement while South Africa was credited with taking 30,000 bushels of wheat. Destination of another 60,000 bushels of allocated wheat was not disclosed.

Prices of cash two wheat, for export to countries other than the United Kingdom, were unchanged.

# Greater Syria Movement grows

## United Arab State Would Be Powerful Force

There has been increasing talk lately of the creation of a "Greater Syria" in the Middle East. The following dispatch explains the reasons behind the movement for the new Arab state, the progress already achieved and its steps that lie ahead.—EDITOR.

**By James E. Roper**  
LONDON, June 24.—(BUP)—Political rumblings in the Middle East may herald the creation of a big new state in the birthplace of mankind.  
The rumblings came from Trans-Jordan, Syria, parts of Palestine and Syrian-occupied sites of the Garden of Eden.

**COMMON HERITAGE**  
The people of those lands have a common heritage dating back to the times of Babylon. They were chopped into smaller states when the Ottoman Empire collapsed at the end of World War I.  
Now they are talking of uniting again in a big new state to be known as "Greater Syria."  
But Russia doesn't want it. France doesn't want it. The United States is silent. Britain officially is neutral, but probably would benefit from the proposed state.  
British-occupied King Abdullah of Trans-Jordan is leading the drive for a "Greater Syria." He would like his Arab neighbors to join the new state under his kingship.

**English Amazed By Canadian Way Of Life**  
Canadian food, distance, trains and habits are overwhelming visitors from London, England.  
Mr. and Mrs. R. A. Moore and Mr. and Mrs. J. J. Faine are visiting Edmonton today, have been constantly thrilled and amazed at Canadian vast distances, comfort of trains, amount and variety of food and the brilliance of cities at night-time.  
"In London," they explained this morning, "the lights only recently went on again. And even so our lights are nothing as compared to these. Like candles."  
Food, too, is presented in such amounts as to stagger the London visitors.  
"We simply can't take it," they said, "and to eat more and enjoy it, but we simply can't."  
Mr. Moore is with Eagle Star British Dominion Insurance Company while in Edmonton will be seeing officials of insurance companies here.

**Indonesians, Dutch Reach Partial Pact**  
WASHINGTON, June 24.—(AP)—The Netherlands government announced last night it had reached a "preliminary agreement" with Indonesian leaders calling for withdrawal of Dutch troops from the Republic of Indonesia.  
The Dutch government said the Indonesian embassy said in a statement that it was "in the process of establishing a permanent mission in the Republic of Indonesia" and that the Indonesian government to the effect.

**15 Indians Killed**  
JAMPUR, India, June 24.—(Reuters)—Fifteen persons were killed yesterday when police opened fire on a crowd of peasants who rioted in protest against government orders to surrender grain.  
Police decided how to safeguard their own interests in this strategic oil-rich area.

**Bizarre Autobiography Bares Shooting Motive**  
CHICAGO, June 24.—(UP)—The killing of a pet canary of his presence, she still would be punishing herself.  
The doctors pointed out to her statement that her pet was a bird she had a "terrible desire to kill my mother."

**Bread Riots In Iran Spreading**  
TEHRAN, Iran, June 24.—(UP)—Serious bread riots, touched off by the starvation deaths of 100,000 laborers, were reported to be spreading through the Mesopotamian district of Azerbaijan province today.  
More than 50 men and women were reported to have beaten the governor after shooting outside his office "We are dying from hunger." Later, the mob broke the windows of shops.

**\$23,000,000 Limer**  
WASHINGTON, June 24.—(CP)—The U.S. report that announced yesterday that construction will begin July 12 of a new \$23,000,000 limer to be built at the same site as the old one.  
The ship's tonnage is 20,000.

**MAIDSTONE, England—(CP)—**Prisoners in a social study of the rights of property and non-ownership.

**REGENT OVERRULED**  
Bamangwato Tribesmen Vote for White Queen

Earlier in the day the aged regent, Thabek Khame, told the gathering: "The white woman is unsuitable to serve as a queen. I will hand over the throne to him, but if he brings his white wife I will fight him to the end."  
The regent had attempted to lay down the law but was overruled by a vote of a white queen.

Since Tuesday the tribesmen have been divided into two camps. Seretse should rule them. Seretse after speaker rose before the
